Reem Ebrahim

Front-End Developer | Backend Developer |Full stack Developer

+201129134700 reemsina99@gmail.com LinkedIn Github Profile Cairo, Egypt

SUMMARY

Versatile **Full-Stack Developer** with proven expertise in **Front-End and Back-End development**, specializing in building responsive, high-performance web applications. Proficient in **React.js, Next.js, Vue.js and Node.js**, with hands-on experience integrating **RESTful APIs**, managing state with modern libraries, and implementing scalable, maintainable architectures. Skilled in **UI/UX design principles**, **cross-browser compatibility**, and **mobile-first responsive design**, delivering seamless user experiences across devices. Adept at collaborating with cross-functional teams to transform complex requirements into intuitive, interactive solutions. Passionate about optimizing **web performance**, ensuring **SEO-friendly and accessible interfaces**, and continuously adopting emerging technologies to deliver innovative digital products.

SKILLS

- HTML5 CSS3
- JavaScript / Typescript/ Python
- React.js / Next.js / Nodejs / Vue.js
- Tailwind / Material-ui / shadcn.ui / React Native
- Responsive Web Design Cross-Browser Compatibility
- Web Performance Optimization Version Control (Git/GitHub)
- React-three
- GSAP + THREE
- UI/UX Design Collaboration RESTAPI Integration Mobile-First Design
- Code Debugging & Troubleshooting SEO Optimization
- Agile Development Methodologies

WORK EXPERIENCE

- **Front End Developer | Valoro - Cairo, Egypt** **Aug 2024 – Oct 2025**
  - Spearhead the development and optimization of responsive, high-performance user interfaces, utilizing advanced technologies such as HTML5, CSS3, JavaScript, React.js, and Next.js to deliver seamless web experiences.
  - Collaborate closely with back-end developers to ensure smooth integration of front-end components with server-side infrastructure, enhancing application functionality and performance.
  - Partner with cross-functional teams, including product owners, UX/UI designers, and stakeholders, to transform business requirements into high-quality, user-centric solutions.
  - Lead the creation of detailed wireframes, prototypes, and interactive mockups, translating abstract concepts into intuitive user interfaces with a focus on usability and aesthetic appeal.
  - Maintain rigorous adherence to web standards by writing clean, semantic code, ensuring accessibility, and cross-browser compatibility to deliver consistent user experiences across diverse platforms.
  - Conduct comprehensive code reviews and implement best practices to ensure the scalability, maintainability, and security of front-end code.
  - Optimize front-end performance by identifying and resolving bottlenecks, ensuring fast loading times, improved SEO, and seamless mobile usability through responsive design principles, delivering a consistent experience across all devices.

- **Front-End Developer | Cyparta - Cairo, 6 October** **Mar 2023 - Oct 2023**
  - Led the end-to-end development of dynamic user interfaces, integrating cutting-edge technologies such as React.js and Next.js to deliver seamless, high-performance web applications.
  - Partnered with back-end teams to optimize the integration of front-end components, ensuring efficient data flow and smooth functionality across applications.

- Drove collaboration across product, design, and development teams, ensuring alignment on project goals and the delivery of user-centric features within set timelines.
- Orchestrated the full deployment cycle for multiple websites, managing hosting configurations and overseeing the successful transition of sites to live environments.
- Spearheaded the entire design and development workflow, utilizing user research, prototyping, and iterative testing to refine user interfaces and enhance usability.
- Produced clear and detailed technical documentation, including comprehensive test plans and procedural guides, ensuring transparency and process consistency.
- Diagnosed and resolved complex front-end performance bottlenecks, proactively optimizing code to enhance site speed, responsiveness, and overall user experience.

EDUCATION

- **Diploma of MERN Stack Development | Route, Cairo | Jul 2022**
- **Bachelor of Engineering (BEng) in Engineering | Higher Institute of Engineering and Technology, Tanta | Jul 2021**

LANGUAGE

- **Arabic:** Native
- **English:** Intermediate
